

BOATS AND TRAINS
FOR THE BUM ARMY

C. M. & ST. P. FREIGHT IS CAPTURED BY KELLY.

Railroad Men Forced to Give the Industrials a Free Ride—Coxey Gets Two Canal Boats in More Legitimate Fashion—He Pays Hard Money For a Ride.

COUNCIL BLUFFS, Iowa, April 17.—Kelly's army held up a train just east of here early this morning and compelled the train men to take them on board.

CUMBERLAND, Md., April 17.—Special—Coxey's army continued its journey this morning by canal boats. All day yesterday the army remained in the most comfortable camp it has had in a long while. It is located in the ball park. A brook of good, clear water runs near by and the thermometer stood at 70 all day. The men had a much needed chance to wash their clothes and generally fix up after their march through the mountains.

The army has had good luck in Cumberland. It gathered in \$145 by charging 10 cents admission to the camp. The street-car people contributed another hundred dollars. Contributions of 700 loaves, seventy-five pounds of cheese, sixty pounds of coffee, 300 pounds of beef, and a quantity of bologna, hay and oats were received.

For the next two days the army will have it easy. Early to-day the army will embark on two canalboats to be towed over the Chesapeake and Ohio canal to Hancock, Md. The distance is sixty miles. The reason of this is that the road lies over the mountains and Coxey doesn't want any more mountains in his. For \$85 he has hired two boats and still has Cumberland money to spare.

Populist Grover's Living Petition. CINCINNATI, Ohio, April 17.—John H. Grover, the populist candidate for mayor of Cincinnati, has announced that he will take 5,000 of Cincinnati's unemployed and present them in a body at Washington "to the authors of their misfortune, where without firearms or threats of any kind they will ask the national government to give them work or give them rations." He says he will form no partnership with Coxey or any other man seeking notoriety, nor will he tramp his men. He proposes to pay \$10,000 for transporting the men.

Frye's Army in a Bad Plight. EFFINGHAM, Ill., April 17.—Gen. Frye's brigade of Coxey's army reached this city at 4 o'clock yesterday afternoon. A donation of money was made by the citizens, with which the army was supplied with bread and meat. Gen. Frye spoke to 2,000 persons at the court house at night. The army, since leaving East St. Louis, has dwindled down to 135 footsore men. The rest started southward to catch a train at Sandown, to the Baltimore. Gen. Frye, with his command, will proceed from here along the Old National road to Washington.

A Reception at Chicago. CHICAGO, April 17.—Kelly's contingent of Coxey's army, now on its way from Council Bluffs, will have a reception from the people's party when it reaches Chicago. The people's party will open headquarters to receive and enroll recruits for Kelly's contingent. A committee will try to obtain a low excursion rate to Washington in order that men may reach the capital in time to meet Coxey.

Grayson's Army Burns Many Cars. DENVER, Colo., April 17.—A detachment of Grayson's Colorado regiment, Coxey's army, seized a line of box cars last night in the Burlington and Missouri yards north of here, and, driving off the watchmen, intended to force the railroad to haul them east. This not being done, several empty cars were set on fire early in the morning, but the fire was put out. At noon the cars were again discovered burning and thirty were destroyed.

Gen. Jones Gets Recruits. NEWPORT, Del., April 17.—After a good breakfast, contributed by the townspeople of Newport, Christopher Columbus Jones and his army started for Newark, nine miles below. Recruits during the night swelled his forces to forty-six. On the Elkton road, three miles below Newark, forty men are in waiting to join him.

Fight on Don Cameron Begins. PHILADELPHIA, Pa., April 17.—The first distinctive battle against the reelection of J. Donald Cameron as United States senator took place at Lancaster county Saturday, where, at the republican primary election, Christopher C. Kauffman was nominated for state senator over J. A. Stober by 700 majority. Kauffman made the fight, pledging himself to vote against Cameron's reelection.

RAILROAD STRIKE EXTENDING.

Great Northern Tie-Up Extending Nearer to St. Paul.

ST. PAUL, Minn., April 17.—The strike on the Great Northern probably will extend into Minnesota. There is not, however, at present any indication of it extending to the Northern Pacific or any other northwestern road. The Northern Pacific company does not seem to expect such a movement nor is it hinted at by members of the brotherhoods. The only important development in the strike is the probability amounting almost to a certainty that the men of the Fergus Falls and Breckenridge divisions in Minnesota will strike within twenty-four hours. It is declared by members of the American Railway union that the strike will be extended to this end within a couple of days if their demands are not met.

President Hill and General Manager Case were in conference yesterday with Messrs. Clark and Morrissey, chiefs of the Brotherhoods of Conductors' and Trainmen, and with the chairmen of the adjustment committees of those organizations, and it is probable some important action will result.

The strike leaders have been careful to avoid interfering with mail cars or cars carrying mail, claiming thereby to have avoided danger of clashing with government officials; but a Great Northern official said that in the big "Q" strike the courts had decided that the whole train was included in the term "mail train," and the Great Northern believed itself clear of obligations to move a single mail car.

At St. Cloud the men last night decided to strike, and all the members of the union went out at midnight. Everybody, including conductors and brakemen, went out. The men at Crookston are at the dividing line, all west of them being out and east not having yet gone out. There is no sign of a strike at Fergus Falls except in the non-arrival of trains from the west. The Great Northern employees at that point did not think they would go out and the railroad men there did not think the strike could possibly win.

One train was moved at Larimore, N. D., yesterday, but no mail has arrived since Saturday and everything is said to be tied up. Grand Chief Clark of the conductors said his organization was taking a vote on the proposed new schedule and could not legally have ordered a strike. He had no advice whether any of his order had gone out, but added that if they had they would be punished.

A dispatch from Washington says the postoffice department has been compelled to establish temporary mail service to many points on the Great Northern road that are cut off by the strike.

ONLY MAIL CARS MOVE.

Great Northern Officials Unable to Have Passenger Trains Hauled.

DEVIL'S LAKE, N. D., April 17.—The Great Northern officials yesterday made three more unsuccessful attempts to get the tied up passenger trains out. The switches were guarded by men who informed the conductor they would not be allowed to move coaches, but could take out mail cars. No mail has been received here since Saturday.

GREAT FALLS, Mont., April 17.—The Great Northern strike situation remains unchanged from Saturday. Chairman of the Adjustment Committee Riker received telegrams from the Eastern Minnesota and Chicago, Burlington and Northern American Railway union lodges saying they would strike if assistance to the Great Northern employees is needed. He has not given them an answer. Riker has wired President Hill that the guard now protecting railway property will be withdrawn if the strike is not settled before 7 a. m. to-day.

SEATTLE, Wash., April 17.—Despite the statements of the officials that the strike on the Great Northern does not extend further east than Minot, N. D., the leaders here say the whole system is tied up. Rumors are afloat among the strikers that the Northern Pacific and every road west of the Missouri river, with the possible exception of the Union Pacific, will be tied up before next week. No trains of any kind left Seattle yesterday over the Great Northern.

SPOKANE, Wash., April 17.—Not a wheel is turning from Minot, N. D., to Seattle. Assistant General Superintendent Farrell has received telegrams from the head officers of the Engineers' and Firemen's Brotherhood and the Order of Railway Trainmen, assuring him the strike would receive no moral or financial support from them. No attempt will be made to move trains out of Spokane until the trouble is settled.

TERRE HAUTE, Ind., April 17.—National Vice-President Penna and State President Dunkerly left yesterday for Illinois, the former for Pana and the latter for Grape Creek, to organize lodges of the United Mine Workers in that state. Twenty more organizers will spend the week in Illinois preparing for the general strike to be begun next Saturday. The block coal miners of Indiana are unorganized, but a mass-meeting is to be held in Brazil this week to try to get them

EVANSTON, Wyo., April 17.—Sixty rugged, fairly well dressed men under Capt. Morgan arrived here yesterday from the west bound for Washington to join the industrial army. Between 100 and 200 men are expected to-day.

May Be Burned at the Stake.

GAINESVILLE, Texas, April 17.—On Elm creek, five miles from here, a party of young people were having a picnic and one of the girls, Hattie Welch, aged 12, started with John Baldwin for a farmhouse a mile distant. Not returning, search was made and the girl found in a thicket dead. She had been criminally assaulted. At least 500 citizens are now scouring the country hunting Baldwin, who will be burned at the stake if caught.

Wish to Lynch Some One.

DES MOINES, Iowa, April 17.—Mrs. Joseph Mason of Somerset, who was shot March 26 by George Ashworth, a farm hand, died last night. The community is greatly excited and threats of lynching are freely made against Ashworth's relatives, who concealed him until last Friday, when, on being found in the barn of his guardian, Ashworth committed suicide.

ST. LOUIS, Mo., April 17.—In a quarrel last evening with Lorinda Gardner, aged 17, Lulu Williams, aged 16, drew a revolver and fired at her. PEIXOTO WILL FORGIVE.

His Complete Triumph Has Made Him Easier to Deal With.

MONTEVIDEO, Uruguay, via Galveston, Texas, April 17.—President Peixoto's government, through the Brazilian minister here, offers to pay the quarantine fees and all other urgent expenses, together with free passage home, of all Gen. Salgado's refugee forces who desire to return to Brazilian territory. This is coupled with a guarantee of freedom from political persecution on account of their recent rebellion to all of them who abandon hostility toward the constitutional authorities.

Inquiries at the hospital elicited the information that her condition remains about the same. Whether this means that she is likely to pass through a serious illness is not yet known.

Col. Breckinridge came upon the floor of the house yesterday just after the chaplain's prayer. Representative Cox of Tennessee shook his hand and so did Mr. McCreary of Kentucky. Then Breckinridge paused a moment. One or two house subordinates greeted him, but no one else appeared to notice him. He took his seat, and a moment later, when the house took a recess, quietly left the chamber.

The Milwaukee Stevedore Strike.

MILWAUKEE, Wis., April 17.—The steamer lines have changed their tactics in fighting the striking longshoremen. Their scheme is to load one steamer at a time, so that any trouble which may arise will be confined to a given point, where a small force of police will suffice to suppress it. Apparently the line managers are in the movement to make the pay of stevedores 20 cents per hour to stay, and failing to secure full forces of men to load their boats at that figure they will no doubt resort to the contract system which has for years been operative at Buffalo and is now being introduced at Chicago.

NEW YORK, April 17.—The visible supply of grain on Saturday, April 14, as compiled by the New York Produce Exchange, is as follows: Wheat, 69,218,000 bushels; decrease, 1,544,000 bushels. CHANGE IN THE PATENT LAWS Innocent Purchasers of Patented Articles to Be Protected.

WASHINGTON, April 17.—The bill amending the patent laws recently agreed on by a subcommittee of the house committee on patents will probably be laid before the full committee at its next meeting. The measure containing provisions for the protection of innocent purchasers of patents and limits to year the time within which applications for patents on articles already patented abroad must be made in this country. The section for the protection of innocent purchasers of patents provides that whenever a patent is alleged to be infringed the patentee shall seek his remedy by bringing suit, in the first instance, against the manufacturer or vendor of the article alleged to infringe said patent. In no case shall an action be maintained against any individual who shall have purchased, in good faith, a patented article of a regular dealer in the open market for his own use, or who shall innocently use same for agricultural or domestic purposes, until after such patent has been sustained by a decree of court of competent jurisdiction, nor unless such innocent purchaser shall fail or refuse to give to the patentee or his representative the name and residence, if known to such purchaser, of the party from whom he purchased such patented article.

When any suit is maintained against such innocent purchaser or user of such patented article, the plaintiff's remedy shall be limited to an injunction and the plaintiff shall pay all costs. This exemption shall not apply to any corporation, firm or company, or to any person as to any patented machine or process made or used by them for the manufacture of an article or product for sale.

It is understood that the rule provides for ascertaining a quorum by counting members present and not voting, and also for fining members who absent themselves from the house. The new rule will probably be presented to the house to-day.

The managers of the tariff bill have only agreed to give one day for the treaty, and its friends will make a strong effort to have it disposed of before adjournment. The opponents of the treaty will attempt first to defeat it outright, and failing in that to have it amended. Senator Morgan thinks the treaty will be ratified as it now stands.

Change in the Treasury Department.

WASHINGTON, April 17.—Probably no other measure except the tariff will be longer debated during the present

It has, however, the approval of all the members of the commission, which consists of three senators and three representatives.

PILING UP THE COAL PRODUCT

Large Companies Preparing for the National Strike of Next Saturday.

PITTSBURG, Pa., April 17.—In anticipation of the general strike April 21 all the large coal companies are getting out all the product they can and shipping it to their largest customers. All the western railroads are being taxed to their utmost. The Standard Oil company has been piling up 100 cars daily in Cleveland for the past ten days.

Officials of the United Mine Workers will probably meet the Pittsburgh coal operators Tuesday or Wednesday. The majority of the operators say there is no necessity for the meeting, and absolutely refuse to meet the miners' representatives. If the conference is held it is certain the operators will not agree to the advance demanded. The Pittsburgh officials of the miners' union are still of the opinion that 200,000 miners will obey the strike order next Saturday.

IDLENESS FOR THOUSANDS.

Miners of Two Pennsylvania Counties May Strike Saturday.

BRADFORD, Pa., April 17.—Next Saturday the soft coal miners of Jefferson and Clearfield counties will strike for better wages if their present arrangement is carried into effect. "The special committee, to whom was referred the matter of a new location for the city pest house report that we are in favor of retaining the present site and of constructing a building thereon, and we recommend that a new building be erected on the present site, and that the present special committee be retained and authorized to obtain plans and specifications for the same and report the same to the council."

Fourth Fire Alarm Circuit.

Alderman Smith explained the construction of the fire alarm circuit, on the east side of the river, that part of the city being in one circuit so that in case of a break in the wire, as was the case at the Thoroughgood fire, all the boxes in the circuit would be out until the line was repaired. The line was so constructed that a line run from the west side fire station to the junction of Milton and Milwaukee street, would practically make two circuits on the east side, and would prevent the throwing out of so much of the alarm in case of breaks in wire. On his motion the chief engineer was directed to purchase one mile of wire and run the above line.

A. P. LOVEJOY FOR GOVERNOR

Milwaukee Men Think That He Unites Many Good Points.

A. P. Lovejoy is being discussed as a gubernatorial possibility by Milwaukee republicans. Colonel J. A. Watrous in the Sunday Telegraph quotes a close observer as saying:

"There is a man down in Janesville the republican party had better give more than a passing thought. I mean A. P. Lovejoy. He is not a Matt. Carpenter, Roscoe Conkling, John C. Spooner or a William McKinley, but I want to tell you he has a whole lot of good points—a big lot of them. He has made his own way in the world, and now, when he still has the promise of a good many years, he has succeeded so well that he will not look want in the face if he does not scoop in a lot more of dollars. Yes, he is what they call a well-to-do man—a successful man. He is also a man of the people and has always been for the people. I knew him in the state senate, where he was as reliable as the sun itself. All he did was well done, and always in the interest of the people. Details? Why, that man lets none of them escape. He is not like good old Senator Sawyer, one of the best men Wisconsin ever had in Washington, nor is he like dear old Jerry Rusk, a man the republican party made no mistake in calling to the front, but this Janesville man makes me think of both of them. He is frank, honest, manly, like Sawyer and Rusk. He has a great reserve force, like those two strong men—men with whom our party won victories when less popular men—men with less good horse sense—would have led us to defeat. I tell you, if the republicans have any more Uncle Philletuses and Uncle Jerrys, let's hunt them up and put them in line. I believe I can go to Janesville and put my hand on a man who combines many of the excellent qualities of both of these Wisconsin stalwarts. His name is Lovejoy, and I tell you our party can well afford to give him a thorough looking over."

To My Little Grandchild in Heaven.

[By Mrs. A. W. Curtis, "Cora May."] Through blinding tears, I see

A bit of silken floss of dark brown hair,

Cut from thy head

When thou wert dead,—

My little one!

And this is all I have,

For thou wert born so far across the sea

I could not take thee in my clasping arms,

My little one, so dear, so dear to me!

Nor see thy face,

In which to trace

With keen delight, each day's, new opening

Grace,

I could not see thee, dear,

Close nestled to thy fair young mother's

Breast,

Nor see her happy smile and tears of joy,

Nor see my boy

In all the tender pride of fatherhood,

When first he took thee gently in his arms,

God's precious gift so dear!

And all this time there stood

Outside the door, an angel sent from God,—

Who doeth right.

And suddenly our little one was gone

Back to her heavenly home,

Out of our sight.

For them, struck dumb with grief,

Are precious memories of the little face;

The little hands and feet;

The dainty lips so sweet;

The lovely eyes that opened to the light,

But all I have is this—

To look upon and kiss,

A bit of silken floss of dark brown hair,

Cut from thy head

When thou wert dead,

My little one!

ANDREWS IS AFTER THE SHERIFF'S JOB.

PROMINENT MAGNOLIA MAN IS
A CANDIDATE.

Scarlet Fever Scare In Afton Subsiding—County Farmers Rushing Their Spring Work—John Weirick Suddenly Stricken Down While In the Village Store at Shopiere.

MAGNOLIA, Wis., April 17.—W. B. Andrews will be a candidate for sheriff of Rock county at the next county convention. He is an honest, upright and capable man, and would fill the office as well as any man in the county. Furthermore, we think the town of Magnolia is entitled to a county office if any town in the county is, as there has never been but one

WATER USERS KICK BUT NOT TOGETHER

COMPLAINTS HAVE NOT BEEN FORMULATED.

Big Meeting at the Business Men's Rooms and Grievances Are Discussed In An Informal Way—Committee of Five Will Report In Another Week.

Grievances against the water company were not formally presented at the meeting of the Business Men's association last night. The committee investigating complaints made by consumers will report next week.

There was a big meeting last night, the water company being represented by Manager Maxey. W. H. H. Macloon told an instance of where a gentleman put in water works and paid for six months in advance. The water was turned off in about three weeks and the company refused to turn it on or to refund the money. Mr. Macloon asked for a statement from Manager Maxey.

Mr. Maxey said that he did not come here to hear complaints that would be made against the company. He came for the purpose of meeting the committee, but they did not seem to be prepared. Of course he did not know what the grievances of the consumers were and he did not desire to enter into any discussion until he found out what the complaints were. After the citizens had laid their grievances before the committee he would like to see the committee and see what could be done.

A. D. Hendrickson said that his hydrant was out of repair and he got a machinist to repair it. Then the company refused to turn the water on until he took it in the house.

Dr. Henry Palmer stated that he took the pressure at his office yesterday and it was 35 pounds to the square inch. He had often found it below 40. The contract the Janesville Cotton company had with the insurance companies was that they should have 75 pounds pressure on the automatic sprinklers. The factory would burn down before the sprinklers would work with the amount of pressure on yesterday.

Manager Maxey claimed that there was never less than 70 pounds to the square inch and the pressure could be seen at the various stations where the records are kept.

L. B. Carle, one of the members of the committee, stated that they had seen by the investigation made that there was cause for complaint, and the committee desired another week to more thoroughly investigate the matter.

The meeting thereupon adjourned for a week. President Vankirk requests that all who have grievances report them to the committee in writing immediately so that the committee may present them at the next meeting.

The committee consists of Mayor John Thoroughgood, L. B. Carle, Alex Graham, E. C. Yeomans and H. F. Bliss.

Nothing was done about the proposition to locate factories here. The matter will be considered next week.

YEARS DON'T DIM THE ROMAN'S EYE.

ALLEN G. THURMAN IS TAKING
LIFE EASY.

His Mental Vigor Said to Be Undiminished—Chats with a Reporter About the Unsuccessful Campaign of 1888—Reading French Novels.

HE OLD ROMAN, as Ohio democrats delight to designate Allen G. Thurman, has recently reached the extreme limit of life prescribed by prophet. Yet his eye is not so very dim, nor is as much of his natural strength abated as might be expected in a man who is 80.

That he is not in public life is not so much because of infirmity as from the inclination to let the sands of life sift out slowly in the loved retirement of his library. No one will ever speak of Allen G. Thurman as a great man who died in his dotage.

He is sensitive about being considered feeble, lest the impression may carry with it the idea that physical weakness has gone hand in hand with mental decay.

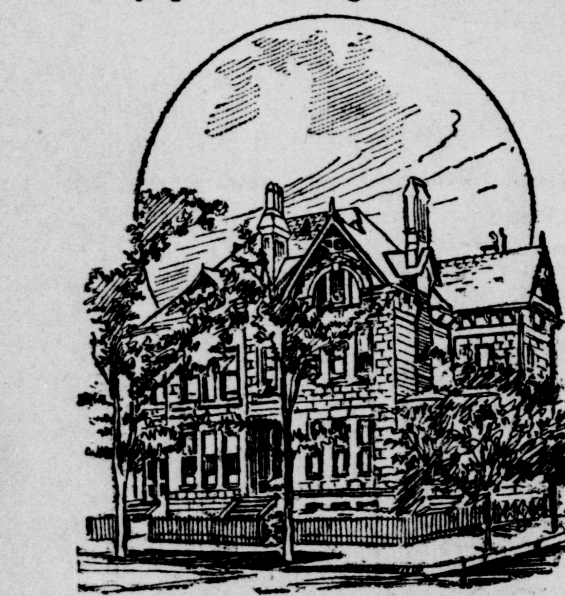

ALLEN GRANBERRY THURMAN.

Far from it. Unless unconscious in his last illness, Allen Granberry Thurman will continue to be as he has always been—a student. His daily delight now is with his books, not with the dull, turgid tomes of his judicial and senatorial life, but rather in volumes of verse and in French fiction, which he reads in the original. Years ago, as a boy in school in Chillicothe, he learned the rudiments of French, and later became proficient in it, having excellent opportunity to do so when in Europe as a member of the international monetary conference.

He never fails to carefully scan the pages of that remarkable daily newspaper, the Congressional Record. Possibly he lives over again the twelve years of his life in the senate—twelve years in which he was the leader of the minority. Thus he is up to date in his views on the current questions in congress.

"Now, don't put me in the newspapers," he said to a reporter in Columbus, Ohio, the other day. "What are my views worth now? I am a worn-out old man who has outlived his usefulness. I like to talk with you, but who cares for the old man's opinions now that he has no part in public life?" Yet he is often consulted by politicians, and has given sage advice to many an aspirant for political honors in Ohio.

Cleveland and Thurman had never met up to the election of 1884, although Thurman was a delegate in the convention which made Cleveland the nominee. They met after the inauguration, and at once developed a remarkable friendship. The wonder was that Thurman did not go into the cabinet. Regarding this, he said: "After the election the press and my friends seemed to agree that I should become secretary of state, and the matter was brought before Mr. Cleveland. For my part, although I said nothing, I had determined to decline. I felt too old for active service. But I didn't have to decline. Some of my other good friends in Ohio prejudiced the President against me and my closest personal friend in the senate, Tom Bayard, was chosen."

THE THURMAN MANSION IN COLUMBUS, OHIO.

There was sarcasm in the Old Roman's voice as he referred to the "friends" who had abused him to Cleveland, who had said that Thurman was in his dotage, had even said that he was addicted to drink and circulated all manner of evil report about him.

"But time went on," said Judge Thurman, "and I met the President when I was counsel for the government in the telephone cases. Perhaps I, too, had been prejudiced against Cleveland by the reports of him which had been brought to my ears by his enemies. Suffice it to say that we became the best of friends and I learned to admire him more than any public man I have ever met. His friends and other eminent men in the nation insisted in 1888 that I should be the nominee for Vice-President."

"I did not want the honor. I preferred to stay at home, but they made me promise to say nothing and not to say no if nominated. So they nominated the ticket, and then in November we were beaten. Oh, it was a shame to beat us! A burning shame that a brave, good man like Grover Cleveland should be beaten!" The Old Roman sighed deeply as he recalled the campaign of 1888.

Judge Thurman, as all call him in Columbus, lives with his children and grandchildren in the splendid stone mansion, in modern style, at the corner of Rich street and Washington avenue. The old Thurman homestead on High street will soon be a thing of the past. A new hotel, named after the judge, will be erected on the site. He contributed generously to the fund for the erection of the new structure, but did not himself care that his name should be over the portals.

In his new home, where he will end his days, he spends most of his time in the library. To visitors he is always at home at night—never during the day. His custom is to chat with callers and the family after the 6 o'clock dinner, and then, after 10 o'clock, he takes up his reading. Very often he reads all night, and the sun is shining in his window before he lays down the book in which he has been absorbed. During the day he sleeps. He has no hour for retiring and none for awakening.

Thurman is not a religious man, in the strict sense, and very often he may be poetically profane. Yet, both his private and public life has been remarkable for its purity. Since the death of his wife, two years ago, he has been more secluded than ever.

Judge Thurman is a rich man. The estate of his wife has been well managed and greatly increased. The Thurman family has always been among the most aristocratic in the state, and the younger generation is prominent in the social circles of Columbus.

KILLED AMONG APACHES.

How a White Woman Perished in the Early Days of Arizona.

The following story is told by one of Arizona's early pioneers: In 1864 Dr. Alsap and Lord Duppa, well-known pioneers, were prospecting with a party in the Bradshaw mountains on Hassayampa creek. One morning the party separated for the purpose of hunting. In going up a canyon, in which they were separated from their companions by high mountains, Duppa's detachment was attacked by a large band of Tonto Apaches. The whites gradually fought their way across the range with the hope of rejoining their companions.

During the advance Duppa, who was stationed behind a rock, noticed that he was the particular mark of an Indian with a bow. Several arrows had fallen at his feet and one struck him in the arm. Raising his rifle he took aim, and just as he was touching the trigger the supposed Indian cried, "Don't shoot!" in good English, but it was too late, and the body fell over with life extinct. Soon after the two parties succeeded in forming a junction, and the Indians retreated, leaving their dead.

Out of curiosity the party returned to the place where Duppa killed the supposed Indian and found that it was a white woman, evidently 30 years of age and dressed in all the paraphernalia of the Apaches. Extensive investigation was made, but no trace of her former whereabouts could ever be obtained.

G.A.R. NOTICE

We take this opportunity of informing our subscribers that the new Commissioner of Pensions has been appointed. He is an old soldier, and we believe that soldiers and their heirs will receive justice at his hands. We do not anticipate that there will be any radical changes in the administration of pension affairs under the new regime.

We would advise, however, that U. S. soldiers, sailors, and their heirs, take steps to make application at once, if they have not already done so, in order to secure the benefit of the early filing of their claims in case there should be any future pension legislation. Such legislation is seldom retroactive. Therefore it is of great importance that applications be filed in the department at the earliest possible date.

If U. S. soldiers, or their widows, children, or parents desire information in regard to pension matters, they should write to the Press Claims Company at Washington, D. C., and they will prepare and send the necessary application, if they find them entitled under the numerous laws enacted for their benefit. Address:

Press Claims Company,

JOHN WEDDERBURN,

Washington, D. C. Managing Attorney

NO STATE WANTS IT.

The trouble of the democratic party in attempting to carry out its tariff reform pledges all proceed from one source—the difficulty of harmonizing the selected victims of the free list and the reduced duties in favor of their proposed sacrifice.

If Mr. Wilson is well enough now to sit up and read what is going on in the senate, it must astonish him. As a reformer who had really thought that his party was zealous for the great principle of tariff reduction, it must fill his soul with disgust to see how thoroughly sordid and sectional and local the democratic senators are disposed to be in dealing with his great measure.

Every senator of them is willing to have tariff reform tried on in some other senator's state.

The Louisiana senators subscribe to the Wilson reform programme—with a reservation in favor of sugar. Alabama is with Wilson heart and soul—except as to iron and coal. Missouri is solid for the uprooting of the "robber tariff"—except as to lead. Kentucky is sound on the free-trade goose—but she wants an extension of the bonded period for her whisky. Tennessee views the general scheme of withdrawing protective rates from imported goods with high favor—but marble exempted from the free list. The rice-growing states are in line, too, against the "protected monopolies"—subject to a little tariff tax of 83 per cent. on rice. California enjoys the free list proposed, too—except for prunes and fruits generally.

COUNTING A QUORUM

It has taken the democrats in congress two years and a half to get around to the position occupied by the republicans before them. At last they have been compelled to report a rule for counting a quorum, which differs from the practice followed when Mr. Reed was speaker only in detail and not in principle. After declamations innumerable against republican tyranny, they confess in the face of the people that it has been either ignorant or insincere; that they have been fighting against fate for nothing.

The Wilson bill proposes to give the protected industries of the country—well, say "its." And all orthodox democratic senators believe it should be done. But before the burning begins every man of them wants it distinctly understood that the interests of his own state are to be saved from the holocaust.

Every democratic senator wants the Wilson bill passed—except the clause that applies to the vital industry of his own state and section. It was long ago observed that many people who favored the doctrine of eternal fire and brimstone for certain of their neighbors are opposed to it for themselves.

No wonder Reed smiles when he sees the efforts democrats are making to get a quorum in congress. The Reed rules were just and well considered. Compared with two or three of the Crisp substitutes they are fairness exemplified.

'CHICAGO BELLE' IS STILL SPEEDY
Her Owner and His Attorney in Janesville On a Law Suit

"Chicago Belle" is recovering from the injuries she suffered in the Chicago & Alton wreck last summer and has shown some fast miles on the Janesville track. She will be campaigned this summer, but her owner claims damages for her retirement last year. Depositions in the case were to have been heard before Justice H. S. Sloan today but there was a defect in the notice and the hearing did not take place. Kickham Scanlan, who represents Owner D. W. Ryan, was not present. Scanlan's was here and Lee Masters, one of Ryan's assistants was with him.

BERLIN, April 17.—The bill permitting the return of the Jesuits to Germany passed its third reading in the reichstag by a vote of 168 to 145.

THE WEIGHT OF CARES.

SOME OF THEIR EFFECTS ON THE SYSTEM.

They Bring on Wrinkles and Premature Old Age—A Sure Way by Which You Can Avoid All These Results.

All have cares of some kind and cannot avoid it. The business man, clerk, factory-hand, house-keeper society person and students all have their personal responsibilities. It is those cares that make so many persons have weak nerves, weakness, impure blood, indigestion, kidney and liver complaint, head ache and innumerable other troubles.

There are countless numbers of persons in just such condition. They are not sick with any particular disease, but are out of order, have weak nerves and tired bodies. They do not eat or sleep well, wake tired mornings with bad taste in the mouth and dull feeling in the head; they have lost their snap and energy and work becomes an effort. An important letter on this subject has just come from one of the most prominent and wealthy citizens of Waterbury, Vt. George W. Atkins, Esq., is a leading business man there being at the head of the firm of Atkins & Haines, and well known throughout New England. He writes the following letter for your benefit:

GEO. W. ATKINS, ESQ.

"About two years ago I had pneumonia and was brought very low. After I got out I was in a very feeble condition, not being able to attend to my business for some time. I had become all run down and did not know what to do.

"I was nervous and exhausted and worried over my condition. I took many remedies but did not seem to get any better.

"At last I decided to take Dr. Greene's Nervura blood and nerve remedy, having heard it very highly spoken of. I had not taken it but a very short time when I began to notice decided improvement. I continued using it and the benefit derived was marvellous.

"I was cured by this wonderful medicine and recommended it to every body. I have no hesitation in saying it is the best medicine I have ever seen."

You know you want to be strong and healthy. Well, all you need do is to take Dr. Greene's Nervura blood and nerve remedy and you will be all that you desire. Think this over. There is one season when medicine acts better than any other and that is the spring. It is also the season when everybody is obliged to take a spring medicine.

The leading one and the best is Dr. Greene's Nervura blood and nerve remedy. Everybody is using it now.

Dr. Greene, of 35 West 14th Street, New York City, discovered it. He is the most successful specialist in curing nervous and chronic diseases, and can be consulted free, personally or by letter.

Tracing the Big Theft of Bonds.

SAGINAW, Mich., April 17.—Newell B. Parsons was brought into the police court at 2 o'clock yesterday afternoon and the investigation into the charge against him of stealing \$463,000 in railroad bonds in the Wells-Stone company was at once taken up. The evidence against Parsons is strong.

Victory for Gov. Waite.

DENVER, Colo., April 17.—The Supreme court has granted the writ of ouster in the fire and police board controversy and ordered the old board to turn over the offices at noon tomorrow. This is a complete victory for Gov. Waite.

No Fear of Trouble at Bluefields.

WASHINGTON, April 17.—Senor Don Horacio Guzman, the Nicaraguan minister in Washington says there is absolutely no reason for fears that trouble would occur in the disputed territory.

"A peculiar case of interference by a labor organization is reported from Hull, England. A man who had been twenty years in the employ of some timber merchants in Hull became disabled, and the firm, out of consideration for his long services, decided to keep him on its payrolls at a reduced wage. The trade union with which he was connected objected to such an arrangement insisting that he should be paid full wages. Under the circumstances the firm discharged him and he was thrown on the hands of the guardians of the poor. They have granted him three and a half shillings and a loaf of bread per week for six weeks.

SOME WELL KNOWN FACES.

Mitchell's Handsome Wife.

The wife of Charley Mitchell, the pugilist, is a handsome young woman, with blond hair and a beautiful complexion. She is an American, the daughter of "Pony" Moore, and has been the mother of four bright children, the youngest of whom died since Mitchell came to America.

MRS. CHARLES MITCHELL.

The pugilist is very fond of his wife and children. Mitchell has always been a money maker, and his family is well provided for. They have a town house in London and a country place at Brighton. The pugilist usually keeps two horses, and as he receives an income of about \$10,000 a year from his Washington Music hall in London, and coins money as an actor-pugilist, he lives in comparative luxury. Mrs. Mitchell is a good business woman and during her husband's absence looks after his affairs in London.

GEMS AND JEWELS.

The play of color in the opal is due to minute fissures in the stone.

An uncut diamond looks very much like a bit of the best gum arabic.

The diamond, in a sufficient heat, will burn like a piece of charcoal.

The best pearls are found on the Ceylon coast and the Persian gulf.

Diamonds so small that 1,500 go to the carat have been cut in Holland.

Every gem known to the lapidary has been found in the United States.

The topaz took its name from a Greek word meaning glass, since the ancients could only guess at the locality whence this beautiful stone was obtained.

The diamond is believed to be of recent geological formation, and a microscopic examination often discloses in its substance minute plants and vegetable fibers.

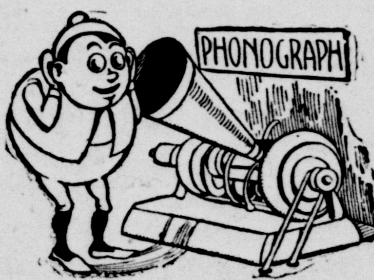

Among the interesting facts not generally known are that the supply of rubies has steadily diminished for centuries, and that now a ruby the size of a carat or over is worth from three to ten times as much as a diamond of similar size; that the sapphire is the same stone as the ruby, but different in color; that the "star" sapphires, the rarest variety, exhibit by a reflected light a six-pointed star; that the best turquoises are American; that an imitation of the turquoises is cut from the teeth of fossil animals; that spinels resemble very precious gems; that the tourmaline has electrical properties when heated.

ROHRMOSER IS FREE AND NOT A "LIFER."

JUDGE BENNETT HELPS TO
GET HIS PARDON.

Life Convict Is Shown Clemency by Governor Peck, at the Instance of Jurors and Others Concerned in the Case—Steinhauser Murder Story Revived.

Henry Rohmoser, whom Judge Bennett sent to state's prison for life in September, 1888, has been pardoned by Governor Peck.

Rohmoser, who is still a young man, was a farm hand, and worked for John Steinhauser, a farmer near Jefferson. He and Mrs. Steinhauser became unduly intimate. On the night of March 5, 1887, Mrs. Steinhauser shot her husband as he lay sleeping in bed, and then called Rohmoser, who was in an upper room, and endeavored to implicate him in the deed.

The pardon was largely granted on a letter from Judge Bennett, who wrote Governor Peck that he never believed Rohmoser guilty of actual participation in the crime, though he doubtless had guilty knowledge of it afterward. An endeavor was made during the trial to induce him to tell what he knew about the matter but he refused to testify against Mrs. Steinhauser. After his conviction and sentence however, the judge says, Rohmoser made a clean breast of the matter to his attorneys. Judge Bennett thinks he deserved some punishment, but says that in his judgment he should not be compelled to remain in prison for life.

Punished For Refusing to Talk.

Besides the letter of Judge Bennett, there were presented petitions for Rohmoser's pardon signed by nine of the jurymen who tried him; by all the officials of Jefferson county, and by several hundred prominent citizens of the county.

The governor states that the pardon is granted on the ground that Rohmoser was not guilty of the crime of which he was convicted, and was not interested in any way in the commission of the crime, his crime being in refusing to testify against the woman who did commit the crime, as shown by the letter of Judge Bennett, in which he recommends the pardon on the ground that Rohmoser was really only accessory after the fact, and if he was convicted on that charge the sentence he would have received would be less than he has already served. The governor also cites the numerous petitions for the pardon.

Mrs. Steinhauser was convicted of the crime she committed, and is now serving a life sentence at Waupun.

BALL PLAYERS NOT ENGAGED.
Only Two From This City Are Booked For the Season.

Only two of the Janesville ball players have engagements this year, George Wilbur in Peoria, and Birmingham in Des Moines.

"There isn't the money in ball playing there was a few years ago," said one of the experts last night. "Players are too plentiful. Since fielders and basemen got to wearing big gloves anybody can hold down the job. A rule against anybody but catcher and first baseman wearing gloves, would cut down the number of professionals twenty per cent, would give the batters more of a chance, and would make better times all around. You will see that rule in another year, too."

No steps have been taken to organize a first class Janesville club yet, and nobody seems in a mood to try the experiment. The nine paid expenses last year, but the managers had to give it lots of time, and didn't get much for their trouble.

ACCIDENTS OF PECULIAR KIND.

CHEEVER LAND GOT TWO MEN IN COURT

TROUBLE OVER THE FAMOUS
CASE NOT ENDED.

Charles Stoney Bought a Farm From Hartshorn & Simmons, and Found Fred Cheever in Possession—Contest as to the Lease Results in Litigation Before Judge Phelps.

Property that was turned over by D. G. Cheever in settling the embezzlement case is making trouble. Mr. Cheever transferred it to his former bondsmen, Hartshorn & Simmons and they sold it to Charles Stoney. Cheever says it was transferred subject to a lease to his son, Frank Cheever. Right here is the hitch.

When Stoney got the farm he claims he knew nothing about the lease and cared less. He went out prepared to work it, and found Cheever plowing. Cheever refused to vacate so Stoney drove his wagon across the line of the furrow and put an effectual stop to proceedings.

Cheever objected to this peremptory way of enforcing a claim and had the rival claimant arrested on a civil warrant. Chief Acheson served the warrant today and the matter was called up in the municipal court.

LEFT WIFE AND CHILD AT A DEPOT
Fred Powers Sought By the Police But Not Found.

Mrs. Fred Powers told Chief Acheson a story punctuated with sobs and emphasized by tears at the North-western depot last night. She said Fred married her a year and a half ago. In her arms was a ten months old child. She had been living in Watertown until yesterday when Powers brought her to Janesville.

She got off one side of the train and as she turned her back Powers disappeared. She searched for him about an hour with the child in her arms, then asked Acheson for help. He couldn't find the missing husband and sent wife and child to the Railroad hotel, advising an early return to Watertown.

Rock county republicans can hardly go amiss in selecting their ticket this fall. The best of timber is presented for their approval.

Word comes from Beloit that C. N. Nye, late chairman of the county board of supervisors, will be one of the candidates for county treasurer. Mr. Nye is an old resident of the county and has served the town of Beloit in the county board many terms. His friends suggest that no man is more familiar with county matters than Mr. Nye, and that his long service in the board and his careful attention to the trusts confided to him will make him a strong candidate.

He will be started south as soon as his load of Kentucky dew evaporates.

PLACE TO BE FILLED AT THE HIGH SCHOOL

PROFESSOR STONE RESIGNS
HIS POSITION.

Board Will Meet Tonight and Probably Will Elect T. W. Goldin President and John Cunningham Secretary, Besides Naming a New Instructor in the Commercial Class.

There is now a vacancy in the commercial department of the Janesville High school, Professor Stone, who has had charge of that department having resigned, the resignation to take effect at once. A meeting of the new school board will be called for this evening for the purpose of organization and the consideration of some important business. Commissioner T. W. Goldin probably will be the new president of the board and John Cunningham is likely to continue as secretary. A new teacher will be named for the commercial department of the high school to succeed Mr. Stone and the board will take some action in relation to the vote on the new high school building.

"The question has been raised by Mr. Eldredge that the proposition failed for want of a two thirds vote," said one of the commissioners this morning, "and the board will undoubtedly take some steps to ascertain just how the matter stands."

A MOMENT OF SWEET RELEASE.

It Comes When a Woman Doffs Street Dress For Dressing Gown.

A woman may declare as much as she likes that her ordinary costume does not cause her any discomfort and may thrust both fists up under her bodice to prove that in spite of its wrinkleless fit it is too large for her, and the skeptical observer may be staggered by this feat. But Dr. Charles Reade exposed the fallacy of that demonstration long ago, and the woman feels, although she doesn't admit it, that the moment when she exchanges her pub-

ROSE COLORED DRESSING GOWN.

lic attire for her dressing gown is a moment of sweet release. It has been confidently stated for many years past that literary ladies wear their dressing gowns all day, and although this is not known positively to be a fact it is safe to take it for granted that if a woman is the author of a particularly meritorious article, poem or novel she wrote it under the fostering influence of the dressing gown.

Thin wrapper flannel is the most suitable goods for this garment. It comes in plain tints, stripes, plaids and figures, through the entire gamut of colors. Delicate tones are usually preferred, both for dressing gowns and for the comfortable little breakfast jackets so much worn. The latter are made with a fitted back and loose front, and when they are trimmed with a fluff of lace around the shoulders and a knot of ribbon here and there they are as pretty as anybody need desire.

Pongee is a good material for a summer dressing gown, although it is better to have a flannel one at hand all the year round. The pretty blue and white Japanese cottons are also utilized for this purpose, made up in the fashion of kimonos. These have the additional merit of being washable, and they are certainly picturesque.

A sketch is given of a dressing gown made of rose colored flannel. It has a fitted wateau back and a loose front with a gathered yoke outlined above the bust by a band of black and gold galloon. Gathered epaulets bordered with galloon fall over the tops of the bishop sleeves. At the wrist the sleeve is gathered into an open cuff, from which falls a flounce of the flannel. A belt of galloon, beginning at the under arm seams, confines the fullness of the front of the gown.

STRIPES FOR SUMMER.

French Chambray of All Colors Will Be Popular This Year.

A number of pretty cotton fabrics are shown this season in a variety of dainty colorings and delicate designs, and embroidery may usually be found in the general stock to go with them when they are not specially accompanied by such trimming. A great many stripes are seen, a pleasing example being a yellow and white thin French chambray. These cham-

brays come in pink, blue, green, heliotrope and buff, embroidered with black as well as plain, and are much used for tea gowns. For the sheerer fabrics a great deal of Valenciennes lace is employed as trimming. Dotted nainsook, mull, figured organdie and linen lawn are made up into extremely pretty gowns thus decorated, although for linen goods fine torchon lace always seems preferable. Linen makes an ideal summer gown, and although it is more expensive than cotton fabrics it wears remarkably well and looks new as long as it lasts. It is also much used for morning jackets, which are elaborately frilled and puffed.

The flowered organdies already mentioned, which come in all delicate shades, are often made up in as costly a fashion as higher priced goods and in such a way as to preclude laundering.

Dotted muslins, formerly to be found only in white, come this season in various colors, scarlet included. A muslin gown of this color may be prettily trimmed with knots of black velvet ribbon, while for paler colors black or white lace is employed.

An illustration is given of a gown of figured linen batiste. It is made with a long draped overskirt and a round bodice which has a sort of vest in front composed of accordion plaited surah. The lower part of the vest extends in long sash ends below the waist. There is a yoke shaped trimming around the shoulders, consisting of a double frill of lace headed by a flat band of the same, and bretelles of satin ribbon are carried down on each side to the ribbon belt. The sleeves have a balloon puff from shoulder to elbow, while below the elbow they are tight and are covered flat with lace. A wrinkled collar of batiste finishes the neck.

BRIEF BITS OF HUMOR

A Terrible Revelation.

He—At last we are alone, and we have an opportunity to speak. I have been seeking this moment for days and days, for I have something to say to you.

She—Go on, Mr. Harkins.

He—I will. Miss Jones, you perhaps have not noticed that at times I have been constrained, uneasy, even awkward, in your presence, that I have had something on my mind that I felt I must say to you.

She (softly)—Yes.

He—That constraint, that awkwardness, Miss Jones, was due to—due to—

She—Go on, Mr. Harkins.

He—Was due to the fact that I feared you were not aware that I am engaged to your mother.—Harper's Magazine.

An Epicure's Daughter.

A certain gentleman in this city known as an epicure was dining a friend not long ago, and the baby daughter of the house, Katharine, aged seven, was brought at dessert to see the guest. The guest, who is very fond of children, was asking her all sorts of questions, but her father was somewhat taken aback when he asked: "What do you love best in the world?" and she answered:

"Papa and corn fritters."—N. Y. Advertiser.

His Attitude.

Tramp (to philanthropist)—Sir, I am one of the unemployed, and you could place me in a position I should very much like to occupy.

Philanthropist—Certainly, my good man; what is the position?

Tramp—That of owing you one dollar until the next time I meet you.—Truth.

An Idea.

Bobbie—Papa, I've been reading a story about an elephant drawing up a lot of water, and then squirting it all over a man he didn't like.

Bobbie's Father—That wasn't a very nice thing to do, was it?

Bobbie—No. I should think he would have made him check his trunk.—Harper's Young People.

Part of the Architect's Plans.

Jean—My house is to be an exact counterpart of this old chateau that I saw in Normandy.

Lisette—Ah, but it will lack the mellowing effect of age.

Jean—But a gentleman with nine children is going to lease it for two years before I move in.—Vogue.

A New Mother-in-Law Joke.

"Mr. Smith, your mother-in-law—"

"Oh! do not say that anything has happened to her."

"Nothing has happened to her."

What makes you so anxious about her safety?"

"Why, man, she pays my rent every month."—Tammany Times.

Employer (to clerk)—I hear you've just got married, Bunkle, and I'm sure you can't support a wife on the salary you're receiving.

Clerk (joyfully, expecting a rise)—No, sir, I don't see how I can.

Employer—Just what I thought; so you'd better leave.—Brooklyn Life.

A Modest Request.

Young Woman (in post office)—Won't you please stamp this letter for me?

Astonished Clerk—Why don't you do it yourself?

Young Woman—I'm afraid to. I read of a dreadful case of poisoning from the gum on a stamp yesterday.—Judge.

The Doctor's Art.

Illy—I don't see why the doctor has to come here twice a day. He leaves medicine on his first visit, doesn't he?

Mrs. Illy—Yes; but he has to come again in the afternoon to leave an antidote for the medicine he left in the morning.—Puck.

A Practical Suggestion.

Robbie—Mamma, doesn't it make your hands warm when you spank me?

Mamma—Why, yes, Robbie, it does.

Robbie—Wouldn't it do just as well, then, mamma, for you to go and hold them over the kitchen range?—Texas Siftings.

An Interesting Conversation.

Mother—Did you try to make yourself agreeable at Mrs. Hightone's?

Little Daughter—Yes'm; I told her all the funny things our callers said about her, and she seemed to be real interested.—Good News.

A Safe Delay.

Jess—You said you were going to speak to father when you met him at the club.

Jack—I saw him only once, and then he was two hundred dollars behind the game.—Puck.

Another Matter.

Merchant—I can't excuse you tomorrow for the sake of pleasure.

Clerk—It isn't pleasure—I'm going to get married.—Halle.

THE BUSINESS WORLD.

The sugar production of Louisiana has increased eighty-six per cent during the last five years.

Statistics of the losses caused by the great coal strike in England put the total at \$150,000,000. This is almost as great a drain upon resources as would have been caused by a war lasting the same term. More than half the loss was in wages of men.

The extent to which the electric light is used in New York city may be judged by the fact that, according to estimates made by the Electrical Review, more incandescent lights are supplied by one illuminating company in New York than are used in the whole city of London.

A paper published entirely in the modern Greek language has just been issued in New York city, and is said to be the first publication of the kind in this country. It is called Atlantis, and gives special attention to archaeological news and the findings of the excavations now in progress in Greece.

A hundred thousand acres of land in Mississippi were sold a few days ago to a French syndicate, which proposes to secure the settlement thereon of a large number of desirable European immigrants. Negotiations are also in progress for the purchase of a tract of 24,000 acres of land in Tennessee, the prospective purchasers being the intended immigrants themselves.

There is a little revolution among a number of jewelers in Maiden Lane, New York, who are in arms against Elbridge T. Gerry for having painted a bright orange color a building owned by Mrs. Gerry in that street. The jewelers declare that when the rays of the sun are reflected from the Gerry building, and are cast upon diamonds of the first water on exhibition in their windows, they blend with the pure white of the diamonds and impart to them a pale, sickly yellow hue, so much so that a brilliant worth \$1,000 looks as if it were not worth \$200, while a cheaper diamond looks like paste.

A Standard Bearer.

In the crusade inaugurated nearly half a century ago against the professional ignorance of the old school of medicine, Hostettler's Stomach Bitters was a standard bearer. Its victories over disease, when the old time remedies failed, proved that the pseudo-philosophy which sanctioned the administration of violent remedies where the case required none, which laid down as unalterable rules blood letting, violent purgation, the use of emetics and the employment of corrosive and cumulative poisons in simple cases of liver and malarial complaint, was in fact the worst of unphilosophical contrivances. In the laws of true medicinal science, of hygiene and of common sense. Biliousness, constipation and chills and fever, as now treated by the Bitters, promptly yield where before they obstinately resisted old fashioned medication. So do dyspepsia, rheumatism and kidney complaint—all surely conquerable by this safe and really philosophic remedy.

Science and the Bible.

Bobby—Aunt Nellie, what became of the swine that had evil spirits cast into them in the Bible?

Aunt Nellie—They plunged headforemost into the sea, Bobby.

Bobby, triumphantly—Not a bit of it, auntie. They were made into deviled ham.

What Sort Of a Piano Does The Gazette Give Away?

The Best that Money Can Buy.

Not an Upright Piano in the Market Excels the Shaw—
Few Equal It.

Piano Buyers often pin their faith blindly to certain makes of Pianos famed in the Concert Rooms. Experts tell us, however, that the upright pianos sent out by certain firms making a Specialty of Concert Grands, are far Inferior to the Shaw. In such establishments the "grand" gets all the care and watchfulness and skill--- the "uprights" are turned out like so many wash tubs.

This isn't true of Shaws.

Nothing but uprights and only one grade of them are made in the big Erie, Pa., factory. The foremen of the three leading departments are three of the best men, one from Steinway's, one from Knabe's and one from Chickering's factory.

Japan's Cruel Divorce Law.

Hanniker Heaton has been gathering some very interesting marriage statistics concerning the customs in vogue in different countries, from which one reads with amusement, and perhaps a certain degree of amazement, that throughout Japan a man may get a divorce if his wife talks too much. Ordinary people may suppose that this harsh law will have the effect of curbing loquacity, but it has not. Japanese ladies are the most talkative of their sex, and divorces are common among them. In Thibet a woman is entitled to three husbands. In Melbourne a man may secure a divorce if his wife gets drunk three times, or if she habitually neglects her household duties.—N. Y. Sun.

Force of Habit.

He was a justice of the peace, but that did not prevent his falling in love with a pretty widow, and asking her to marry him.

"But this is so sudden," she said, "you must give me time."

He was afraid of a rejection and it upset him so he said hurriedly in a judicial voice:

"Ninety days and costs. Next case."

UNCLE TOM GROWING WHITE.

A Georgia Negro Who is Sable-Hued Only in Spots.

Dr. Stelwagon lectured at his clinic at the Jefferson college hospital in Philadelphia, on the case of Thomas Cleveland, a negro, whose entire skin has turned white save a few small patches on his face. Lately Cleveland, who is known as "Uncle Tom" was exhibited at the clinic in behalf of medical science by Dr. McD. Lindsey, who brought him from the South and is making a tour of the leading medical colleges with him. Uncle Tom states that he is about 66 years of age, and says that he was born in the neighborhood of Washington D. C., either in Maryland or Virginia. At an early age he and his mother and brother were taken South and sold to a planter in Hart county, Georgia. Prior to the war he worked as a plantation laborer, and since then has been what is known as a cropper, tilling the soil on shares.

At the age of 17 his skin began to turn white in patches. Now his entire epidermis save a few patches the size of a nickel on his cheek bones is white. When these patches disappear, which Dr. Stelwagon says will be probably within a year or six months, Uncle Tom will be as white as any man and have nothing to distinguish him from a Caucasian save his kinky hair and the conformation of his head. Dr. Stelwagon stated that cases of a partial loss of pigment were not unusual, but said that a complete loss of color like that of Uncle Tom was remarkable and almost the only one on record. This loss of pigment, the doctor said, was under the influence of the nervous system. It was usually associated with some nervous disease, but in Uncle Tom's instance this did not appear to be the case.

WITH HER HAIR.

The Young Lady Stole Gold Dust and Diamonds.

A young lady employed by a gold and silversmith in New York has only her good looks to thank for the fact that she was allowed to resign without being prosecuted for theft. She has an extraordinary fine head of hair, which she allows to hang loosely over her shoulders and nearly down to her waist. From time to time it was noticed that the gold used in the room in which she worked did not go as far as it ought in making jewelry and gem settings, and that even allowing for the filings, which are most carefully preserved, there was a distinct leakage.

Steps were taken to subject the employee to a more rigid search, but no discovery was made until the young lady with the long hair quarreled with her roommate over a love affair, and in a fit of jealousy her rival gave away the most interesting story. The young lady had kept her hair well greased, and then while at work would frequently pass her fingers through it casually, as though it were a mere matter of habit. By the process she accumulated a good deal of gold dust in her hair and sometimes dropped some diamond chips as well. Every night she combed out her locks with the smallest of tooth combs, carefully collected the peculiarly purloined treasure-trove and sold it without any difficulty. She broke down completely when taxed with the offense, made restitution as far as she was able, and her tears and promises were so profuse that she was then allowed to depart in peace, although her employers somewhat inconsistently took measures to prevent her obtaining further employment in the business in which she was an expert.

ONE WOMAN'S WAY.

She Masks as a Meek Widow When She Goes Forth Alone.

When a woman lives alone in the city, as a great many of the clerks in the departments at Washington do, there is one problem above all others with which she is confronted, namely, that of going about at night. It is not always that there are fellow clerks in the same boarding house who feel inclined to go to the theater or go calling at the same time, though "then parties," as the exclusive female theater expeditors are facetiously termed, are a frequent makeshift. Of course, there are a good many nice young men who would gladly serve as escorts, but they are not always wanted, and sometimes when they are wanted they are not to be had.

There is one woman, at least, who has solved the problem for herself in a way that is somewhat novel. A woman alone on the street at night in stylish clothes, such as most of the independent young women of the departments wear, is much more apt to be the subject of unfavorable attention as one not so distinguished. But the average girl does not want to wear all her old clothes for the sake of being inconspicuous, and the young lady in question has provided herself with a long, plain, black cloak and a little close-fitting widow's cap, with a bewitching white ruching inside it.

Thus armed and equipped she can sally forth with all her best finery protected beneath the Quakerish cloak, and there is not one man in 500 who would not respectfully give her the whole width of the sidewalk as she walks meekly forth to some merry-making.

Simple Test of the Eyesight.

There is an experiment that anyone can try to discover whether he has an incipient cataract. Stand with the back to the window with a lighted candle before the eye. If the eye be healthy three candles are seen—two are erect, but the middle one is turned upside down. When the back of the lens is opaque the inverted candle nearly disappears or is obscured, and when the front of the lens is affected the inverted candle entirely disappears.

OUR METHODS AND OUR REWARD.

As to the former, we would remark that they are ours and ours only. We buy and sell after our own plans and specifications. Imitation is only a form of flattery, AND WE NEVER FLATTER. Again we never bid against ourselves. We make the prices and it always goes. We don't put down here and put up there, but everything is on a fashion of horizontal reduction. As to our REWARD, verily we are having it. The people are wise enough to know their friends, and the amount of trade tells a truthful tale.

Catarrh
AND
COLD IN THE HEAD
relieved instantly by one application of
Birney's Catarrh Powder

REV. FATHER CLARK, S. J., writes to the Rt. Rev. Bishop of Columbus, Ohio, writes:
Gentlemen:—I cannot say enough for your Powder. It has cured me of an aggravating attack of catarrh when nothing else could help me. Am delighted with it. All my friends to whom I administered samples are quite enthusiastic over it. The good sisters speak most encouragingly of their use of it in the Hospital under their care. I will do anything to speak a good word for the remedy to help others who are suffering.

M. E. FRANKSON, Custodian U. S. Appraiser's Stores, Chicago, writes:

Gentlemen:—Being almost entirely deaf for a number of years past and getting no relief from many so-called cures which I tried, was induced by a friend to try Dr. Birney's Catarrh Powder for my deafness. Have recovered my hearing entirely, so that I can now hear a watch tick plainly, it being held 18 inches from my ear. I look upon it as a positive cure for deafness and have recommended its use to many of my friends and can say I have never heard of a case where it has failed to relieve.
